

Probability for Data Science

Last modified: 2026-09-28 01:04:02 (PDT)

Welcome

These notes collect the probability that data science courses assume.

Using these notes in another site

Course sites include these notes as a git submodule named `pds` at the site's root, and include fragments with paths that start with `pds/`.

Quarto resolves `@id` cross-references only within one rendered page, so a host site that links to a result here uses an explicit link to the page and anchor.
